*Module under development – planned publication date within 2024
The Mechanical ventilation for residential buildings module will allow to design mechanical ventilation systems with an air handling unit (recuperator), dedicated to residential construction, based on system solutions provided by manufacturers.

Important additional information:

1. **All the prices in the price list are net prices, without Value Added Tax.** VAT will be added to the invoice according to valid tax regulations and depend on place of residence of the Customer.

2. **Discount for purchase of larger quantity of licences**
   Terms of granting the discount:
   - valid in case larger number of the same product (licences in the same configurations and the same unit price) is the subject of such transaction
   - discount level
   2 licences – 7% (for both licences)
   3 licences – 12% (for all three licences)
   4 licences and more – 15% (for all licences accordingly)

3. **Terms of payment:**
   Transfer – advance payment covering 100% of the order value on the bank account:
   Alior Bank Spółka Akcyjna, Al. Jerozolimskie 94, 00-807 Warszawa
   PL84 2490 0005 0000 4600 1414 1902; SWIFT (BIC): ALBPPLPWXXX
   Please execute the transfer parallel to sending the order. Software will be sent upon receiving the money on the InstalSoft bank account.

4. If you want to buy a licence as a natural person (who does not conduct a business activity), please contact us for details before placing an order and starting money transfer.

5. **Configuration upgrade for one-year time limited licence of version 5** - allows you to use the new configuration until the end of the licence validity period. The upgrade price does not depend on the remaining validity period of the licence.

6. InstalSoft version of the InstalSystem package (also called neutral or full version) gives the possibility to use all available product catalogues used by the selected package configuration, both neutral and customized.

7. Hardware requirements and the scope of standards and calculation methods used in the software are available in the article:

   https://instalsoft.com/support/package-technical-specifications/
